

JOB OPPORTUNITY BULLETIN

CLASSIFICATION: Epidemiologist

BULLETIN RELEASE DATE: July 10, 2000

FINAL FILING DATE: Until Filled

POSITION NUMBER: 811-140-7968-001

MONTHLY SALARY: \$4,542 - 5,480 per month

DUTIES/RESPONSIBILITIES: Under the general direction of the Chief, Reproductive Toxicology Unit, Reproductive and Cancer Hazard Assessment Section, the Epidemiologist evaluates dose-response characteristics of agents which cause developmental or reproductive toxicity. Conducts reviews of the most current available epidemiological data on chemical of interest to the Office of the Attorney General, the regulated community and other interested parties. Summarizes and evaluates the information for usefulness in evaluating human risk. The incumbent develops and evaluates mathematical and statistical models which improve the estimation of risk from exposure to chemicals which cause developmental and reproductive toxicity. Reviews available data from humans and integrates them with data from experimental animals to develop documentation of dose-response analyses for developmental and reproductive toxicants. Holds public workshops to discuss epidemiological issues. Presents to the state's qualified experts (Developmental and Reproductive Toxicant Identification Committee) and responds to the concerns of the committee and public comments on the technical details of the documentation. Provides counsel to Office of Attorney General on exposure-related issues for developmental and reproductive toxicants listed under Proposition 65.

DESIRABLE EXPERIENCE/QUALIFICATIONS: Knowledge of and experience in: principles and methods of biometry and demography; principles and procedures of epidemiology including design and evaluation of epidemiologic research; theory, practice and application of epidemiologic methodologies, including one or more specialized fields of epidemiology; methods of preparation of scientific research reports. Ability to plan, implement, and coordinate various research studies; function independently and direct staff in performance of epidemiologic investigations. Demonstrated success in working cooperatively with internal staff and outside agencies. Ability to follow program/departamental guidance to implement epidemiological practices and procedures. Excellent oral and written communication skills. Ability to analyze situations accurately and take effective action.

WHO SHOULD APPLY: State employees currently employed in the above classification, persons with current list, transfer or reinstatement eligibility, and state employees currently identified as surplus or on the SROA list.
